 in cabling, networking, security,
 hosting services, cloud computing,
 telephone services and more.

*SyNet SOLUTIONS, Inc. proudly
 donates IT Services to admirable
 Non-Profit organizations.*

MARLON MOCTEZUMA, CEO SyNet SOLUTIONS, Inc.

We tailor our services to address issues important to our clients so that they can concentrate on what is most important: running their businesses, while being confident that their technology infrastructure is in good hands.

INNOVATIVE THINKING

Our experience is combined with our commitment to education. We keep abreast of ever-changing technology by requiring our staff members to participate in ongoing training and certifications.

We pride ourselves on forging strong, long-lasting relationships with our clients. Our combination of superior client service and technical expertise sets us apart and gives us a unique ability to understand and analyze complex issues. We identify and implement the best and most cost effective solutions to meet the needs of our clients.

Next-Generation IT Services

HELP DESK SERVICES

Today's business networks need much more attention than in the past. Your company needs to administer, support, secure, troubleshoot, and keep your technology current. These processes must be seamless and automatic in order to consider them as successful. Your technology has to perform so you can maximize your employee's productivity.

CLOUD COMPUTING

The Cloud offers a new approach, which is to keep your entire technology infrastructure on an equipment farm maintained by SyNet Solutions, where you pay only for the server space you need.

NETWORKING

Whether connecting a handful of computers together to share printers and internet access or setting up a network of hundreds of computers and dozens of sites SyNet SOLUTIONS can design, implement and manage your network, server room or Data Center.

HOSTING SERVICES

We can deliver a comprehensive suite of Managed Hosting Services built on: predictable costs, reliable results, and the ability to extend your IT resources on demand. We provide you the support of a team of experienced, certified professionals with specific knowledge about your hosting solution.

SECURITY MANAGEMENT

From setting up internet firewalls and installing anti-virus and spam blocking software to providing access control and video surveillance SyNet SOLUTIONS can your premises and your data secure.

CABLING

SyNet SOLUTIONS designs, installs and certifies data and voice cabling. We do not skimp in the details. We use only the finest cable and materials sourced from the top manufacturers. We provide detailed documentation and certify every grade of cabling from CAT 3 to CAT 6.

FOR BUSINESS ON THE GO

Thanks to innovations in cloud computing services and mail servers, you can work from any mobile device and be connected to your office files anytime, anywhere.

Can your company keep up?

Your computer system should be viewed as a constantly evolving entity. Future upgrades and expansion need to be taken into consideration. SyNet SOLUTIONS will help you implement a technology that is tailored to your organization so you can be prepared for the future and maximize the return on your investment in technology.

Effective Technologies for Business Success

SyNet SOLUTIONS, Inc. is a Manhattan based IT Consulting and Implementation firm that provides the highest quality engineering delivered with the utmost in personal service.
